MODEL RAILWAY EXHIBITION

Amongst the layouts on display are St Stephen's Road, a 'OO' Cornish-themed layout where the Western Region meets BR's Southern Region and China Clay trains are the order of the day. St Stephen's Road was built as a project layout by Hornby Magazine editor, Mike Wild and features in the 2012 Hornby Magazine Yearbook. Also, with a very appropriate Cambrian feel is the 'OO' BR(WR) Rhyd-y-Clafdy which has featured in British Railway Modelling magazine and will be making its last ever public appearance at the show.

All the layouts will be running at weekends, some of them midweek.
